Customized Trailer-Mounted Hot Water Pressure Washer System

- Single Axle Rated to 3,500 lb.
- Customized Hot Water Pressure Washer
- 200 Gallon Water Tank
- Dual Saddle Boxes

Shown with pressure washer and options

- 200-gallon white **High-Density Polyethylene Water Tank** comes standard and features a 7-inch access port plus a 3/4-inch float valve and 50-mesh outlet filter.
- 3-way ball valve makes it easy to **Switch Water Sources** from the holding tank to direct water feed from a hose faucet.
- Trailer comes with standard **Electric Brakes with Break Away Kit** or optional hydraulic brakes.
- Built to handle up to 1,000 lbs, the swivel jack **Tongue Assembly** includes 2-inch ball coupler for quick and easy hookup. Two 5/16-inch chains are also included for additional safety.
- Made of **Durable 10-Gauge Steel** and covered with a powder-coated black finish for weather protection.
- Wheel and axle assembly features an **Industrial Undercarriage** leaf-spring suspension of up to 3,500 lbs. with 15-inch wheels and sturdy fenders.
- Heavy-duty chassis with recessed lights and electrical wiring includes license plate holder and **Dual Saddle Boxes** for convenient tool storage.
- Optional **Rock Guard with Wand Holder** for added protection.
- Optional **Hose Reels** hold up to 100 feet of hose and quick connect to the chassis.

WHY CHOOSE THE 3500 TRAILER?

Landa has made customizing a trailer-mounted wash system for on-site cleaning an easy two-step process:

1. Select from three series of portable, self-contained, industrial-grade, hot-water pressure washers.
2. Add any options and accessories, such as hose reels, rear utility rack, etc. to fit your application.

The 3500 trailer is made of extra-rugged 2-by-4 inch, 10-gauge formed channel. The wheel and axle assembly feature leaf-spring suspension of up to 3,500 lbs. and 15-inch, white rimmed wheels. A powder-coated finish gives the entire package added weather protection.
